

## Baltimore With Children

The child whose parent turns to Mike Strzelecki's *Baltimore with Children* for ideas to fill a few hours or an extended trip will be lucky indeed. Much more than a simple list, and not just the same old thing, this guidebook ferrets out unique destinations in and around the city that will excite children's curiosity and stretch both bodies and minds. From Agritainment to Zoos, the author gives a detailed description of each attraction and activity--including advice about age and skill level, as well as directions, cost, and admission information--with special emphasis on outdoor fun like camping, biking, and hiking. For residents and visitors alike, this is a rich and well-rounded offering of such unexpected delights as a tire park, a store that caters to budding magicians, and a cafe with the [mechanical] alligator lurking in a wishing pond--all field-tested by the authors' own daughter and son.
