

Vingt Mille Lieues Sous Les Mers (French Edition) 20,000 Leagues Under the Sea

The great Jules Verne classic in French. L'année 1866 fut marquée par un événement bizarre, un phénomène inexplicable et inexplicable que personne n'a sans doute oublié. Sans parler des rumeurs qui agitaient les populations des ports et surexcitaient l'esprit public à l'intérieur des continents, les gens de mer furent particulièrement émus. Les négociants, armateurs, capitaines de navires, skipper et masters de l'Europe et de l'Amérique, officiers des marines militaires de tous pays, et, après eux, les gouvernements des divers États des deux continents, se préoccupèrent de ce fait au plus haut point. En effet, depuis quelque temps, plusieurs navires se étaient rencontrés sur mer avec une chose énorme un objet long, fusiforme, parfois phosphorescent, infiniment plus vaste et plus rapide qu'une baleine. Les faits relatifs à cette apparition, consignés aux divers livres de bord, s'accordaient assez exactement sur la structure de l'objet ou de l'être en question, la vitesse inouïe de ses mouvements, la puissance surprenante de sa locomotion, la vie particulière dont il semblait doué. Si c'était un cétacé, il surpassait en volume tous ceux que la science avait classés jusque-là. Ni Cuvier, ni Lacepède, ni M. Dumeril, ni M. de Quatrefages neussent admis l'existence d'un tel monstre à moins de l'avoir vu, ce qui s'appelle vu de leurs propres yeux de savants.
