

A Matter of Face

During an historic period in Hong Kong when most of the Hong Kong community were worried about the imminent change from British Colonial Rule that they had been used to all their lives, to the imminent transfer of sovereignty to become a Special Administrative Region of the Peoples Republic of China, two families separately find themselves in situations far worse than they could ever have imagined. A series of events embroil them in false accusations, kidnapping , murder and the destruction of families. Set to a backdrop of life in Hong Kong in 1997 leading up to and following the dramatic change of sovereignty, in one of the last jewels in the British crown. A fast moving story, not for the squeamish, that takes the reader into many aspects of Hong Kong life.
