

A Midsummer Nights Dream

This volume is the definitive New Variorum edition of *A Midsummer Nights Dream*. Horace Howard Furness (Nov. 2, 1833 - Aug. 13, 1912) was the most important American Shakespearean scholar of the 19th century. As editor of the New Variorum editions of Shakespeare -- also called the Furness Variorum -- he collected in a single source 300 years of references, antecedent works, influences and commentaries. He devoted more than 40 years to the series, completing the annotation of 15 plays. An 1890 review comments, In what is called The Variorum Edition of Shakespeare, America has the honor of having produced the very best and most complete edition, so far as it has gone, of our great national poet. For text, illustration (happily, not pictorial), commentary and criticism, it leaves nothing to be desired. The editor combines with the patience and accuracy of the textual scholar, an industry which has overlooked nothing of value that has been written about Shakespeare by the best German and French, as well as English commentators and critics; and what is of no less moment he possesses in himself a rare delicacy of literary appreciation and breadth of judgment, disciplined by familiarity with all that is best in the literature of antiquity as well as of modern times, which he brings to bear on his notes with great effect.
