

Green Dollhouse - Creating a Dolls Eye View of a Healthier World

The Green Dollhouse Book celebrates the wonderful ideas produced by entrants to the Green Dollhouse competition, sponsored by Sustainable San Mateo County in 2005. The book showcases the most compelling entrants and highlights the environmental features and lessons of each of these selected green dollhouses. Illustrated with beautiful, full color photographs, the book also contains three How-To sections so that readers can build upon the lessons learned from other dollhouse builders. Useful facts and statistics on sustainability are threaded throughout the book so that child and adult alike can learn critical information on how our homes and offices can have smaller environmental footprints. Visually rich, this publication promises to provide a wonderful entrance into the world of Green Building - through a dolls eye perspective that reminds us to: Start Small, Think Big, Build Green.

Green Dollhouse: Creating a Dolls Eye View of a Healthier World Zoe House And Furniture, \$149, now featured on Fab. A girl is never too old for a dollhouse. Especially a modern pink one.
