

# An Improper Suitor

A lady in possession of an independent fortune has no need for a husband. Miss Julia Swifton, secure in that belief, has made no attempt to search for one, even after three seasons in London. That is until her grandmother, an advocate of womens rights, rises from her deathbed and threatens, of all things, to marry her to a notorious rake, Lord Thorwynn. Shocked into action, Julia launches into a search for an intelligent, scholarly husband who will suit her. On her way she has to rescue a fallen angel, save a rake from being forced into marriage, defeat an unscrupulous gamesmaster who needs to seduce her for money, and avert a friends disastrous runaway marriage. Fortunately, she does not have to do it alone. Even if her companion, Lord Thorwynn, is the last person she would ever want to marry.
