

Hans Christian Andersen fairy tales (Chinese Edition)

Hans Christian Andersen built a magnificent magical kingdom of fairy tales with his life for the children. In this kingdom there are the kind and lovely little mermaid who gives a lot for love without regret, the foolish king who puts on the inexistent new clothes, the ugly duckling that had been laughed at turns finally into a beautiful white swan... These fairy tales celebrate the justice, industry and bravery, as well as condemn the hypocrisy, selfishness and laziness. Now let us walk into the vast and colorful kingdom of fairy tales, to feel personally what the true, the good and the beautiful are, and what the false, the bad and the ugly are! This book chooses carefully the most famous passages of Andersen's fairy tales, provides them with fine and beautiful illustrations.
