

Baffling Banff

The tiny Canadian mountain town of Banff receives 4 million visitors annually. These people have to sleep somewhere... The Settlers Inn, short on staff, hires travel writer Jeroen Vogel as their new front desk agent. Having never been to Canada, he refuses to read up on Banff before coming over in order to let the place happen to him. As the town and the scenic surroundings unfold during his many adventures, he becomes more and more baffled by the people, the history, and hidden gems in the landscape. A travelogue filled with Banff adventures and history, Baffling Banff is essential reading for previous/current/future visitors of Banff, any curious traveller, and of course Banffites wondering what their town looks like through foreign eyes.
