

Birdfinding in British Columbia

From Canada's top birding team comes the definitive guide to finding birds in British Columbia. Veteran naturalist and birdfinder Richard Cannings and his son, Russell, a gifted birder in his own right, use their combined knowledge and expertise to guide readers to the best birding sites in the province. The book is divided into eleven regions, from Vancouver Island to the Far North, providing bird lovers with detailed information about how to reach the best sites to look for birds, when to look for them, and what they might find. Packed with descriptions of the natural history, ecosystems, and diverse landscapes of British Columbia and accompanied by numerous maps, this thorough guide is enhanced by Donald Gunns charming line drawings and the authors infectious enthusiasm, making it a must-have for novice and expert birders alike.
