

## Blind Scorpion, Books 1, 2 & 3: Irans Nuclear Sting

Readers of Tom Clancy, Brad Thor, Stephen Hunter, John Le Carre will enjoy this fast-paced, international spy thriller.

(Note: This book was previously published as *Mushroom in the Sand*, by Farsheed Ferdowsi. Please do not purchase this title if you have already read that book).

5 STARS! Fast paced and suspenseful, it features a surprising range of highly likable characters a thoroughly well-researched book by a person in the know. - Claude Forthomme, former United Nations worker 5 STARS! Suspense, intrigue, and betrayal - the game of spy versus spy where corruption, espionage and the quest for the ultimate power rule, governments have their ways, and Iran is no exception. - Dii, Amazon Top 500 Super Reviewer 5 STARS! Masterpiece! Timely, fast paced and hard to put down. Would make a helluva movie! - Fred Bowditch, Book Reviewer 5 STARS! What interests me more is the depth of his knowledge (clearly the author has a passion for it) about nuclear technology and how people can use it to destroy things. In addition to that, we have many big players in the book: MOIS, Mossad, US and Russia, all in it for various reasons. - Ailyn Koay, Book Reviewer

**BOOK DESCRIPTION** The **BLIND SCORPION** is a Top Secret computer program for simulating nuclear weapons explosions and the catastrophic havoc they wreak. Dr. Ross Shaheen, the developer of the software, is living the American dream. Between his internationally-recognized nuclear weapons research career at the prestigious Berkeley Lab and his picture-perfect family in the San Francisco suburbs, its a good life that can only get better...until he is lured into lecturing before an elite group of scientists in the country of his birth: Iran. The seven thousand mile trip takes Shaheen back to the land of the lion and the sun, yet it also delivers to Irans very doorstep an important American citizen with a Top Secret

security clearance. It soon becomes clear what the Iranians are really after: the BLIND SCORPION. The coveted software is the key to advancing their clandestine nuclear weapons program without the rest of the world being able to prove its existence. Shaheen becomes entangled in a twisted web of espionage, corruption and survival, putting to the test not only his secret knowledge but also the very core of his allegiance to the land he now calls home. If he lives, Ross Shaheen could walk away a hero. The question is, for which country?
