

Blow the House Down: A Novel

Former CIA operative Robert Baer pushes fiction to the absolute limit in this riveting and unnervingly plausible alternative history of 9/11. Veteran CIA officer Max Waller has long been obsessed with the abduction and murder of his Agency mentor. Though years of digging yield the name of a suspectan Iranian math genius turned terroristthe trail seems too cold to justify further effort. Then Max turns up a photograph of the man standing alongside Osama bin Laden and a mysterious westerner whose face has been cut out, feeding Maxs suspicion. When the first official to whom Max shows the photo winds up dead, the out-of-favor agent suddenly finds himself the target of dark forces within the intelligence community who are desperate to muzzle him. Eluding a global surveillance net, Max in the summer of 2001 begins tracking the spore of a complex conspiracy, meeting clandestinely with suicide bombers and Arab royalty and ultimately realizing the Iranian hed sought for a decades-old crime is actually at the nexus of a terrifying plot. Showing off dazzling tradecraft and an array of richly textured backdrops, and filled with real names and events, Blow the House Down deftly balances fact and possibility to become the first great thriller to spring from the war on terrorism. Also available as a Random House AudioBook and an eBook From the Hardcover edition.
