

## Caldera - Book II - A Man on Fire

Caldera continues his vengeance quest and a mysterious figure, the Lynx, appears in footnotes to the history of the West. Calderas true father seeks buried treasure on the Gulf of California while his surrogate father, the Pima warrior Prospect, goes on his own quest to find and return with his sometimes son, Caldera. Belle Delcour McKenzie poisons her way from California to Arizona Territory with her own plans for wealth and revenges. All trails lead to a final, deadly confrontation between Caldera and the three forces that have shaped his life - a meeting made more dangerous by the arrival of a mortal enemy.
