

Collaboration (Backlash)

This is not your typical rock star romance. For one, the rock star is a rapper. And not just any rapper. Trace is the hottest ticket in the music industry right now, regardless of which definition of hot you choose. Taryn Starr is not the girl-next-door who unknowingly meets a celebrity. Known as Americas Sweetheart, the reigning country music princess and world-renowned superstar knows exactly who Trace is or does she? Their worlds collide when the musicians whose paths were never destined to cross are forced by their joint record label to collaborate on a song. The sparks fly and ignite a fire that blazes hotter with every minute they spend together for better or worse. One thing for certain, the two media magnets can't deny their explosive chemistry, but will life in the spotlight ultimately bring Trace and Taryn together or force them apart? ***This contemporary romance new adult novel is for mature audiences. The language alone would make a sailor blush (the guys a rapper, remember?) so 18+ only, please.
