

## Craft: Volume 11: Transforming traditional crafts

The Spring 2009 issue of Craft explores Wood Crafts, with projects such as whittling, wood sculptures, wooden jewelry, wooden inlays, and different woodshop techniques and how-tos. You'll learn about crafters who work with wood in unique ways, including a feature on how wood can be found from sustainable resources. Craft, Volume 11, also covers food and gardening projects that highlight the seasons bounty. You'll also learn how to make accessories with resin, how to make a paper lamp, and a slew of other inventive projects to keep you busy throughout the spring. Craft is the first project-based magazine dedicated to the renaissance happening within the world of crafts. Celebrating the DIY spirit, Crafts goal is to unite, inspire, inform and entertain a growing community of highly imaginative people who are transforming traditional art and crafts with unconventional, unexpected, and even renegade techniques, materials, and tools.
