

Detours (Other Places Book 3)

Are you ready to read something that will change how you think about reality? Because here's what you've been looking for. What would you do if you found out that not only were you a Greater Demon, but that your insanity meant that almost everyone in the world would want you dead? Zack Hartley opened a book store. One with a little cafe in the back, and a very special travel agency on the side. One that takes people absolutely anywhere. Now he just has to get his life together while everything else in his world falls apart. It will mean wrangling overly enthusiastic Succubi, Mages and Vampires, as well as members of the general public and the local police force. Worst of all, his relatives. If he fails, then he dies. If he succeeds... Well, then he still probably dies. Who could resist odds like that? Not someone that doesn't get a choice in the matter. If Zack can hang on long enough, maybe he'll learn to become something more than anyone thought he could be? That's the plan. If he can pull it off.
