

De Profundis - The Original Classic Edition

I usually avoid reading writers biographies or letters to their loved ones, especially those published posthumously. I am sure some people dream of the time when their lives are open to scrutiny by legions of readers, when their private confessions are published in neat volumes, and their witty letters to friends have little footnotes explaining the inside-jokes to the uninitiated. But the thought makes me cringe, and in the spirit of the old saying do onto others, I have never before ventured into someones exposed private life. Last summer though, I came across this letter by accident and found myself unable to stop reading it until I was done. The glimpse into someones vulnerable privacy was intoxicating. Having read (and loved) *The Importance of Being Earnest*, *The Ideal Husband*, and other light pieces, or even *The Portrait of Dorian Gray*-a more somber but still very controlled story, I was shocked by this letter-tortured by emotion and so uneven-by the same author. The letter is somewhat contrived. But the insincerity makes it all the more fascinating ! Not even the insincerity in itself, but the bits where the true emotion bursts through. I could imagine so vividly the great author, the person of wit and fashion, stripped of the glamor, in jail, trying to clear up his name in the public letter to his lover. He starts out with calm and controlled prose, trying to put his Christian-repentance-and-forgiveness scheme on paper... And, I am sure, he believes the things he plans to write. However, as he gets deeper into the narrative, as his pen takes a hold of him, he starts writing what he did not mean-the truth, full of bile and unrequited passion. In a while he notices it and collects himself, and the prose becomes controlled and witty and intellectual. But he is in jail, the time for writing is precious and does not permit the luxury of extensive editing. It lets soul nudity that would normally be edited out

remain to seduce shameless readers like me.
