

Unleashed: The Deepest Fears Lie Within (Secrets of the Makai)

Tristan cant wait to get to Darnell-a place where people have similar powers to his own and wont know about the horrific events that led to being exiled from his previous home. Unfortunately, they do know, and so does Lazaro, a ruthless man determined to regain possession of the powerful emerald Tristan stole. And Lazaro isnt the only one on a quest for Tristans blood. A secret society of overzealous dragon slayers believes Tristan is a worthy target to hunt. When he is captured and put on trial for being an abomination to mankind, his continued denial of dragon ancestry wont keep him safe for long. The Slayers have been hunting for generations, and in a private museum of artifacts and past conquests, Tristan discovers a handful of gems akin to the emerald and a new mission-if he can survive long enough to escape captivity. But then...no amount of protection or denial can save him from himself.
