

Taking the Doctors Orders (Medical, Forbidden, Taboo)

College Freshman, Alexis, injures her knee during the most important basketball game of her season. Now she must go see the college campus doctor, Dr. Smith, in order to be examined and relieved of her pain. 18-year-old Alexis injures her knees right after making the game winner against her colleges basketball team rival. Alexis needs to go see a doctor immediately, and her teammate recommends the college campus doctor, Dr. Smith, telling Alexis that he can work wonders. Inside the examination room, Alexis is being given a full-fledged physical examination in order to not only diagnose her knee problem, but to have one on file so that Alexis can continue playing basketball for the schools team. As the examination goes on, it gets more and more personal, even with her parents right outside the room. But, if Alexis ever wants to fix her knee problem and play for the basketball team, she is going to have to take the doctors orders.
