

## Dollhouse Book - Plastic Canvas Pattern Book - #3008

This delightful dollhouse, its furniture and jointed family all are made with plastic canvas. The stitching is easy on this 7 stitches to the inch canvas, and when worked with acrylic yarn, the entire set is washable. The colorful furniture and dolls have real play value for the preschooler, and older children can help with the stitching. Only basic stitches are used, and the set can be made easily even by someone without previous needlepoint experience.
