

Dubliners (Compass Edition, No. C41)

The remarkable collection of stories that make up Dubliners was described by Joyce himself as a series of chapters in the moral history of his community; and the arrangement of the tales reveals a progression from childhood to maturity, broadning from private to public scope, as Harry Levin noted in his introduction to The Portable James Joyce. While the geographic boundary of these fifteen stories may be middle-class, catholic Dublin, the artistic boundary is set only by Joyces far-reaching genius.
