

## SpyTeen, Novella #3 (A Science Fiction Spy Series)

After a dangerous mission that almost kills both Harlan and the woman he secretly loves, he has a million questions. But the only person who can answer them is the one who remains a constant mystery to him. Raven seems determined to keep her distance no matter how hard Harlan tries to break down her walls. When someone sends Harlan a warning about her, Harlan doesn't know who to believe. Meanwhile, Harlan wants to prove himself to Washington and become the hero he's always dreamed of, and he must first earn their trust. Battling gunmen and secret agents is only the first step, yet the organization remains frustratingly secretive about their plans for Harlan. Can he trust Washington in return? Or he is just a pawn in their dangerous schemes that may eventually destroy him? This novella is the third release in the SPYTEEN series by TRIP ELLINGTON.
