

## Ellenore Finds Her Muse (A Digital Short)

Ellenore preferred a quiet life leaving the romance to her fictional characters. Unfortunately, her Muse had different plans. When spinster and romance author Ellenore Mishner discovers the Muse sleeping on her porch, her first mistake is to invite it into her home where it takes up residence in the spare bedroom that doubles as her writing nook. With the help of Ellenores lifelong invisible friend, the Muse encourages her to live a little. How can you expect to write stories about life, love and romance when youve hardly lived, much less loved or experienced romance? the Muse had said as it eyed her fridge on that first day. Whatwhat are you talking about? Shed asked indignantly. Im forty-seven years old. Thats plenty of life. No, thats plenty of time, the Muse replied heading to the fridge. Plenty of time to have lived, but youve sequestered yourself in this tiny cottage for most it. Its time for Ellenore Mishner to get out and live a bit. Who knows, maybe theres even a little love and romance in your future. Ellenore attends the Bingham's Circus and Sideshows where her life takes a dramatic turn when she falls for the handsome and debonair lion tamer, Royce Royal. If youre a fan of such contemporary fantasy stories as appeared on The Twilight Zone and those told by writers like Ray Bradbury and Neil Gaiman, youll feel right at home in Ellenores hometown of Foster Flat where meeting a Muse on your porch isnt all that unusual.
