

Fading in Darkness: Empire of Blood Book Two (A Dystopian Vampire Novel)

In this second installment in the Empire of Blood dystopian trilogy, Hank Evans is headed back to Necropolis, but this time he won't be running for his life... or will he? Tensions between the American Empire and the vampires of Necropolis have risen to an all-time high. With the Emperor threatening Toby's life, Hank's new position as the mediator has just been unofficially upgraded to Imperial spy. But his internal hunger for revenge and newfound sense of purpose can't stay hidden forever. Hank must now find a way to release the hold the Emperor has over him in order to fight back. But an unexpected struggle will put him at odds with who he really is and who he has yet to truly become. Especially when his dreams begin to reveal a terrifying future. And when the city of the dead goes up in flames, and the vampires of Necropolis are forced to flee to the Queens hive, there is no turning back from civil war.
