

## Odd Child: A Child Unready

Young wizard Robin Oddchild is suspected to be the Heir, the descendant of an ancient conqueror who will bring about both a golden age and a war of unprecedented scale which will affect everyone in the world. While many attempt to use Robin for political gain, he is repelled by the prophecies. He feels sympathy for all living things and psychically perceives death as a tragedy in a way most could never comprehend. To him the Heir is a monster.
