

DIAGRAMS FOR FACETING.

This book is a collection of 160 faceting diagrams for gems. It is the authors third book, and the second volume of their well-received first book, FACETING FOR AMATEURS, written in response to many requests for additional faceting diagrams. The authors use words to describe their method of faceting, a system that has been well liked. In addition, the Appendix of the book includes all numbered settings for all of the diagrams in the book. This book also includes all diagrams from their first book which, when possible, were simplified. (This information was taken from the dust jacket flaps written by the authors, Glenn & Martha Vargas. The book was published in 1975.)
