

## The Green Mouse

To the literary, literal, and scientific mind purposeless fiction is abhorrent. Fortunately we all are literally and scientifically inclined; the doom of purposeless fiction is sounded; and it is a great comfort to believe that, in the near future, only literary and scientific works suitable for man, woman, child, and suffragette, are to adorn the lingerie-laden counters in our great department shops. It is, then, with animation and confidence that the author politely offers to a regenerated nation this modern, moral, literary, and highly scientific work, thinly but ineffectually disguised as fiction, in deference to the prejudices of a few old-fashioned story-readers who still survive among us. -- R.W.C.
