

Fuckness

This darkly offbeat novel opens with the narrator, Wallace Black, as the target of the school bullies violence. After suffering a horrendous beating, Black goes home to his equally abusive family. As a punishment for fighting at school, his mother straps a set of grotesque horns to the top of his head. He is unsure of where the horns came from. They have always been in the house. And they contain a power no one could have expected. Let Andersen Prunty (ZEROSTRATA, MORNING IS DEAD, and THE BEARD) guide you through a sometimes hilarious, sometimes violent and terrifying coming-of-age Midwestern gothic novel.
