

## Orphan Girl

This is the story of Gillian Jacobs Eubanks who grew up the child of a sharecropper during the Great Depression. She never overcame her humble beginnings and when Willie Eubanks rescued her from the orphanage by marrying her, she ended up right back where she started. Living in the same cabin, she was born in twelve and a half years earlier. However, she grew to love Willie and was determined that she and Willie were not going to end up as her parents had. In addition, she wanted to make sure her children were not going to have to suffer through the same experiences she had.
