

Grave Matters (Dr. Patrick Grant)

Amelia Brinton, a retired headmistress of a top girls school, appears to have accidentally fallen to her death in Greece. Her friend, a Miss Forest, also meets her death having been pushed down stairs in the British Museum. Dr. Patrick Grant connects the two events and his investigations lead him to a quiet backwater village in Hampshire. Yet more mysteries unfold; a dog drowns in shallow water, there is a case of food poisoning, and finally a house appears to be haunted. There is then another murder. What connects these events and why was Amelia Brinton killed. It takes Grants full powers of logic and deduction, with a little help from the police, to get to the bottom of what is a spine tingling mystery and ultimate crime story.
