

Greenopia: The Urban Dwellers Guide to Green Living Los Angeles (Greenopia series)

This consumer guide is filled with more than 800 listings of green retailers, service providers, and organizations throughout Los Angeles. The businesses are divided into categories and have a minimum green requirement. Some of the categories are further recognized with a green leaf award, which gauges green businesses on a scale of one to four leaves, four being the greenest. The award is based on a measure of a business's sale or use of green products and services. At the beginning of each category, the evaluation criteria is provided. Among the listings are everything from organic restaurants and grocery stores to dry cleaners, organic pest control services, and sustainable building suppliers, landscapers, and interior designers.
