

Cruise Ports: Amsterdam & Rotterdam

This book and others in this series are based on destination lectures given on cruise ships. The purpose of these lectures is to add value to the cruise experience of the passengers at the various ports. These lectures and this book are brief, but comprehensive overviews of the geography, history, culture, points of interest, and general information about the ports, countries, and regions. This book is the second part of a two-book series on the Netherlands and focuses on the two largest cities of the Netherlands, Amsterdam and Rotterdam. The first book in the series is *Cruise Ports: The Netherlands*, and is a general description of the country and various points of interest.
