Hard Charger is a sexy new novella set in the world of Flash Bang by USA Today bestselling author Meghan March. Lia has known true darkness and not just because of the power grid failure nine months ago. She has faced evil and emerged a survivor. Now if she could just make the two men she wants see her as whole and not broken maybe she'd have a chance at the future she's determined to claim. Cam and Travis have been brothers-in-arms since their days as Force Recon Marines, and there's nothing Cam wouldn't do for his best friend except let him have the woman Cam's been patiently waiting for. But when Lia shocks him by saying she wants them both, he has the decision of a lifetime to make. Lose the girl, or lose his best friend. In a world where nothing is certain, can three people find their way to love? \*Warning: This book includes two sexy as hell Marines, one strong woman determined to have them both, and a whole lot of sex the dirty kind. Proceed at your own risk.
