

OLD GITS THAT LUNCH

Take six retired men, put them in a pub for a drink or a meal on a regular basis and the result is inevitable. They put the world to rights every time they meet. As experts on every topic, individual and country on the globe, their discussions are wide ranging. One of them is a writer and he got tasked with recording selected ramblings on a weekly basis. The result became a blog called oldgitsthatlunch. This book pulls together the year 2015 as seen by the Old Gits. If you are easily offended, politically correct or overtly religious this short book is not for you. If on the other hand, you like to reflect on some of the events of 2015 as seen through the eyes of a bunch of old farts, you'll find a page or two to amuse or irritate you.
