

Invisible Wings

Do you ever wonder why life happens the way it does? It seldom unfolds the way you expect, does it? Despite our best efforts, it often winds up in a tangled mess. We lose hope. Faith fades. You feel alone and angry and full of despair or hate, then out of the blue a door opens that you never knew was there...yea, sometimes angels walk among us. Arabella understands that life is messy, complicated, and beautiful. The way she guides her fellow classmates will ultimately surprise you. Life doesn't give you what you want, it sends what you need...and Arabella delivers. Each chapter reveals someone Arabella is watching over, a teenager with a problem they can't handle on their own. She guides them through time travel to reach the answers they didn't know they were looking for. In this framed story, you meet Arabella and discover how she became an angel and how her purpose is linked to those she helps... 12 destinies 12 twilights 12 lives that will never be the same *This book is meant for young adults in high school and beyond.
