

Colters Winter (The Mountain Man Series Book 1)

Its 1806 and mountain man John Colter is ready to leave the Lewis and Clark Expedition. When two fur trappers come up the Missouri River, he has his chance. Heading up into the upper reaches of the Yellowstone River, the men seek their fortune trapping beaver. What Colter doesnt know, however, is that his two companions harbor a dark secret, one involving the very Indian tribes surrounding them in the vast wilderness. That secret will turn the hunter into the hunted.
