

Jumpers

Tom Stoppard's play *Jumpers* is both a high-spirited comedy and a serious attempt to debate the existence of a moral absolute, of metaphysical reality, of God. Michael Billington in *The Guardian* described the play succinctly: The new Radical Liberal Party has made the ex-Minister of Agriculture Archbishop of Canterbury, British astronauts are scrapping with each other on the moon, and spritely academics steal about London by night indulging in murderous gymnastics: this is the kind of manic, futuristic, topsy-turvy world in which Stoppard's dazzling new play is set. And if I add that the influences apparently include Wittgenstein, Magritte, the Goons, Robert Dhery, Joe Orton, and *The Avengers*, you will have some idea of the heady brew Stoppard has here concocted. The protagonist include an aging Professor Of Moral Philosophy -- trying to compose a lecture on Man -- Good, Bad or Indifferent -- while ignoring a corpse in the next room; his beautiful young wife, an ex-musical comedy Queen, lasciviously entertaining his university boss down the hall; her husband's specially trained hare, Thumpers; and a chorus of gymnasts, Jumpers.
