

## Kaspar and Other Plays

Kaspar, Peter Handkes first full-length drama--hailed in Europe as the play of the decade and compared in importance to Waiting for Godot--is the story of an autistic adolescent who finds himself at a complete existential loss on the stage, with but a single sentence to call his own. Drilled by prompters who use terrifyingly funny logical and alogical language-sequences, Kaspar learns to speak normally and eventually becomes creative--doing his own thing with words; for this he is destroyed. In Offending the Audience and Self-Accusation, one-character speak-ins, Handke further explores the relationship between public performance and personal identity, forcing us to reconsider our sense of who we are and what we know.
