

Sequoia/Kings Canyon (National Park, CA) (Postcard Books)

To be in Sequoia and Kings Canyon National Parks is to confront a spectacular landscape as well as trees of mammoth proportions. The quality of your encounter is directly proportional to the amount of time spent in the presence of this landscape. It seems a great injustice to drive many miles, tarry but briefly at the base of several denizens and then move on, because these parks are much, much more than just magnificent trees. They are a delicate arrangement of wildlife, plants, geology and human history.
