

## The Dance Card

The Dance Card is a story told in conversation between a divorced woman and her therapist that quickly evolves into a fascinating journey into the theories of reincarnation, introducing the idea of looping through multiple life treks. Kate Kingston carries with her certain memories that lead her to connect with a particular psychiatrist. As their relationship progresses, they explore the implications of memories from other concurrent life treks and the idea of a dance card of people we are intended to encounter during each of our life journeys. Why do we feel deja vu or an instant attraction or resistance to other people we encounter? What if we really do have a soul group that comes into each of our life journeys to help us have certain experiences and learn certain lessons? The Dance Card will make you smile, make you feel, and most of all, will make you think about the significant relationships you have had in your life and their purpose in your divine mission on earth.
