

## L'Ingenu (French Edition)

L'Ingenu est une œuvre de Voltaire parue en 1767, étiquetée généralement comme conte ou roman philosophique. Voltaire y raconte les aventures d'un Huron (L'Ingenu) qui, arrive en France, regarde la vie française avec candeur, innocence et naïveté. Il est engagé dans une histoire d'amour et se trouve confronté à de multiples difficultés face aux pouvoirs religieux et tyranniques du siècle de Louis XIV. L'œuvre tient à la fois de l'apologue et du conte philosophique par les thèmes abordés comme la vérité dogmatique opposée à la raison ou l'état de nature. Elle relève aussi du conte satirique par la dénonciation des abus de pouvoir avec l'embastillage et la contrainte religieuse. L'œuvre participe également du roman, par exemple du roman d'apprentissage et surtout du roman sensible qui différencie L'Ingenu des autres contes de Voltaire par le traitement dramatique et émouvant des thèmes de l'amour contraire et du destin funeste de l'amoureuse, une pure victime de l'immoralité des puissants. Voltaire présente l'histoire comme véritable et l'attribue au père Quesnel, un janséniste (ce qui est particulièrement ironique, au vu de ce que l'ouvrage rapporte).
