

## Mallorca South 1:40,000 Hiking Map, waterproof, GPS-compatible REISE

Mallorca South 1:40,000 Hiking Map, waterproof, GPS-compatible REISE, 2012 edition This is one of four GPS-compatible sectional (East, West, North, South) maps of Mallorca at 1:40,000 from Reise Know-How, printed on light, waterproof and tear-resistant plastic paper, with very clear presentation of the road network, plus selected hiking and cycling routes. Due to changes in the road numbering system, this map of Mallorca South has the old numbering system. The map is double-sided to provide the best balance between an excellent scale and a convenient sheet size (size 100 x 70 cm / 39.5 x 27.5 in), indexed, and has both a UTM and latitude / longitude (interval 2) grid. Map legend is in English and German. The map has contours at 100m intervals, enhanced by altitude colouring, with plenty of names of mountain ranges, peaks, etc. Road network includes local roads and cart tracks; driving distances are shown on main and selected secondary routes. A wide range of symbols highlight various places of interest, including campsites and mountain shelters, archaeological and historical sites, viewpoints, beaches and surfing / diving sites, botanical gardens, etc. For hikers, the map shows hiking trails indicating easy, moderate or difficult routes. Also highlighted are recommended cycling routes, and indicated are roads closed to cyclists.
