

Metal Style: 2 Jewelry Designs with Cold Join Techniques

Metal Style ensures that all the tools and materials you need are affordable on almost any budget and easy to access. To get started all you will need is a common drill, hammer, sandpaper, wire, and a metal sheet. That's it! You will also learn how to use rivets, screws, and other methods to combine elements in making jewelry, all without the heat. Using just these few simple tools and tricks, you can say goodbye to cumbersome kilns and torches and say hello to Metal Style. Master Jewelry Designers Robert Dancik, Connie Fox, Susan Lenart Kazmer, Tracey Stanley and others offer signature pieces, constructed using cold-joints. Accompanying each project are expert tips, advice for additional ideas and customizations. Metal Style is full of inspiration and techniques for jewelry makers looking to ignite a creative spark in their metal jewelry without lighting a flame.
