

Making Furniture & Dollhouses for American Girl and Other 18-Inch Dolls

Providing the plans and instructions for an heirloom-quality dollhouse and sturdy doll furniture, this guide is written with the home woodworker in mind. All the projects are made with tools commonly found in home workshops, and every set of instructions follows a detailed step-by-step process. Simpler projects are suitable for beginners, and several challenging projects are intended for advanced woodworkers. Modular plans allow adjustments to the size of the house, and there are several options for adding charming details such as gingerbread trim. Furniture projects include an armoire, a chest of drawers, a canopy bed, a classic trunk, a grandfather clock, a rocking chair, a tea table, and a school desk.
