

## Nine Visits to the Mythworld: Ghandl of the Qayahll Llaanas (Masterworks of the Classical Haida Mythtellers, Vol. 2)

Nine Visits to the Mythworld comprises the finest surviving works of the master storyteller Ghandl of the Qayahll Llaanas (born c.1851) and dictated in 1900 to a young American linguist named John Swanton. Far from appropriating legends from another culture as some may suggest, this stunning translation saves for all posterity the accumulated voices of those great storytellers whose fate would otherwise be the Ignominy of silence.
