

Medicinal Love

The hospital is a place to restore health but what happens when the sick are the staff? Jones, a registered nurse, recently took a job at a prestigious hospital which couldn't have come at a better time. After a near death experience, a new city was refreshing until old habits resurface. Time has been said to heal all wounds but what about LOVE? Meet Raegan, a fresh out of high school, newly employed CNA who moved with her boyfriend and best friends ex, Alandis. Rae finds herself in a love triangle that has her experiencing emotions she never knew existed. Join the staff of 5 Wing One as the craziness and secrets of the hospital unfolds. Do medicine & love mix? Is love always the goal regardless of the profession?
