

Mr. November (Shorting the Undead & Other Horrors)

Hoping to finally reconcile the memory of his brothers horrific death, a man returns to his childhood hometown and the house that has haunted him since that long-ago Halloween night. Mr. November is at once a ghost story, a coming-of-age tale, and a tribute to a favorite American pastime. * * * * * There are all manner of hauntings: of places, of things, of people. There are hauntings of the mind, just as there are hauntings of the body and of the soul. But the worst sort of haunting is the kind which infects the spirit, entwines with it, subsumes it. The kind that cannot be easily exorcised. Not, at least, without first killing the host. * * * * * Approximately 16,000 words (roughly 57 pages) For ages 14 and older.
