

New America (Jeremiah Trilogy Book 2)

Jeremiah, a self-styled, modern-day prophet, inspires millions of his followers to move to New America, a utopian colony centered in South Dakota and surrounding states. They buy land, establish businesses, create new cities and take over the machinery of government—including the National Guard and State Police. With financing from abroad, Jeremiahs mercenary army seizes a fleet of stealth bombers and occupies a nuclear power plant near Washington, D.C. Jeremiahs demand that the federal government recognize New American as an independent state creates a military and constitutional crisis. The forces that oppose Jeremiah include his old nemesis, former FBI agent Steve Wallace, and his wife, Laura Delaney, an ex-television journalist who is the object of Jeremiahs obsession.
