

## Red Mist

You are a U.S. Army Military Intelligence trainee. Following Army M.I. protocol, you are sent on a training exercise to a city you've never visited before and ordered to surveil a public person (public persons having little recourse if their privacy is invaded). You can't believe your good fortune. You draw the assignment to surveil Marilyn Monroe. It is early August, 1962, and you have just been made a witness to the murder of Hollywood's biggest star. *Red Mist* is a fast-paced thriller that recreates the world of 1960s America, a decade obsessed with sex, violence, and espionage. Follow David Dengler as he flees from unknown assassins, and struggles to stay alive as dark forces compress him from all sides. Dengler doesn't know he has a rendezvous with death... in Dealey Plaza.
