

Repeat

Through strange metaphysical circumstances, failed screenwriter Brad Cohen finds himself caught in an infinite time loop, forced to relive the first forty years of his life again and again. Each repeat, Brad wakes up in the womb on what was supposed to be his fortieth birthday, with full knowledge of what's come before. In various timelines, he becomes a successful political pundit, a game-show champion, a playboy, and a master manipulator of the stock market, but none of them seem to lead him out of his predicament. As he realizes he wants to break out of the loop and find the love of his life the one he hadn't appreciated the first time around Brad tries, fails, and tries again to escape the eternal cycle of birth and rebirth. Repeat answers the question: If you could live half your life over, would you do things differently? Be careful what you wish for! Repeating is enough to drive a dude crazy.
