COMING OF AGE ROMANCE SET IN THE STYLE OF SLIDING DOORS NEW ADULT CONTEMPORARY ROMANCE WITH A TWIST...ONE BOY. ONE GIRL. ONE INSIGNIFICANT MOMENT THAT CHANGES THEIR LIVES FOREVER Bella and Clark are two young twenty-somethings, finding themselves in a chaotic and crazy world. One craves love; the other avoids it. Will they find one another, or will a single what-if moment mean they never meet? BEYOND PARALLEL is a contemporary new adult novel about lives defining what if moments. In the same mould as the movie, Sliding Doors, this Coming of Age Romance flips between two parallel tales. One follows Bella and Clark as a couple, tackling new careers, small town living, and the prospect of marriage, kids, and mother in laws In the other parallel they never meet, flipping between Sydney and New York, young professional adventures, and cool hipster hangouts. Set over a fast paced and crazy two years, this contemporary new adult journey demonstrates how a small, everyday decision can affect how you look, where you live, the people you love, and the person you become. We could all live a billion lives but are only given one. Is life a game of chance, or are Bella and Clark meant to be? _____

_____ Hi, Im Matthew, and Im a British writer who likes to practice the craft of New Adult and Coming of Age Romance. One day I decided to create Beyond Parallel - my first ever novel, and a coming of romance that helped me come-of-age myself. After a difficult breakup I turned to writing to ease my pain. I considered life and how different it could be had I said yes instead of no. I now realise how many what if moments I face each day, and after reading this book I hope you do, too. I love the New Adult Contemporary Romance

style because it focusses on gritty characters leading grittier lives. Its about REAL relationships, between REAL new adults, leading confused livelihoods and figuring life out. Bella & Clark are two characters much like you and me. Theyre confused. They could become anyone they wish. But they face decisions each day thatll define the rest of their lives. This is a gritty coming of age romance, and Im proud to call it my first novel. I hope you enjoy it.
